WORK EXPERIENCE

SOFTWARE DEVELOPMENT ENGINEER- 1

Tractor junction | May 22 - Present

- **Tractor Junction Mobile App (1M+ downloads)**
 - Implemented real-time data synchronization for loan information, enhancing accuracy and reliability.
 - Optimized app performance, reducing load times and improving battery efficiency on mobile devices.
- **Truck Junction Mobile App (500K+ downloads)**
 - Re-developed app by converting components to functional ones, boosting performance and maintainability.
 - Integrated analytics for user behavior insights, driving informed design improvements.
- **VMS (Vehicle Management System) Mobile App + Backend**
 - Streamlined image uploads with compression, ensuring fast uploads and minimal data usage, and manage inventory across 30+ centers nationwide.
 - Developed automated reporting for sales and stock, providing quick insights for operations teams.

React JS Developer

Webologix | Dec 21 - March 22

At an Edu-Tech startup, developed both desktop and mobile apps, integrating Shaka Player for seamless video streaming in React Native. Built a dedicated parent app to track and analyze children's performance effectively.

SDE Intern

ARS Technologies | Jun 21 - Dec 21

Contributed to a company offering development and digital marketing services by building e-commerce, blog, and education websites using ReactJS, Next.js, and Node.js for dynamic and scalable web solutions.

PROJECTS

[See All](#)

RealTime Chat Application (PostPerson)

React Native | Steam | Supabase

A chat application by which two or more persons can chat. use Authentication with supabase **Edge functions**.

Tech Stacks: React Native (Expo), Steam, Supabase(Backend)

Linkedin Clone

React JS | Redux | Firebase

A LinkedIn clone where users can check news feeds and create posts and can upload them.

Project-Link: <https://linkedin-clone-e10cf.web.app/>

TO-DO LIST

React JS | JavaScript | CSS

TODO list for a broader user group to add tasks and perform other operations on the tasks from the task list.

TECH STACK

Frameworks

- React Native
- Expo
- ExpressJs

Prog. Languages

- TypeScript
- JavaScript
- Java
- GraphQL
- HTML5
- CSS

Libraries

- React Js
- Redux
- Redux Thunk
- Redux Saga
- Firebase
- Formik
- React-Query
- Node Js

Tools

- Xcode
- Android Studio
- Firebase Console
- Jira
- Slack
- Ubuntu
- GitHub
- GooglePlay Console
- Figma
- Postman
- CodePush
- VS-Code
- Sentry
- EAS

ACHIEVEMENTS

- Twice recognized for outstanding performance at Tractor Junction, showcasing dedication and skill.
- Participated in an international conference on Solar PV.
- Engaged in college cultural events
- Achieved runner-up in LAN gaming, highlighting strategic thinking and competitive spirit.
